Quest group

Delivering effective solutions
throughout the insurance life-cycle

Quest Group

The Quest Group was formed in 2005 to provide specialist advice and assistance to the insurance and reinsurance industry. This we deliver through the provision of consulting services, commencing with the formation of a business, through the life of that business and to its conclusion, whether by sale or some other means.

Quest Consulting

Quest Consulting draws on the teams collective experience in managing insurance and reinsurance portfolios together with its financial advisory skills and technical insurance and reinsurance expertise to provide a tailored solution for a specific client situation.

Quest Investments

Quest Investments was established to acquire discontinued insurance and reinsurance portfolios. Our transaction philosophy is to treat vendors as partners and we are committed to working with vendors and our capital partners in an open, honest and transparent way.
